

COIN PROGRAM

PRESIDENTIAL \$1 COIN PROGRAM FACTS

- There are no plans to phase out or eliminate the dollar bill.
- The United States Mint will continue to produce the Sacagawea Golden Dollar along with the new Presidential \$1 Coins.
- Each president will be honored with a single \$1 coin, regardless of the number of consecutive terms served. Grover Cleveland, the only U.S. president to serve non-consecutive terms, will be honored with two coins.
- The inscriptions that have been moved to the edge are "E Pluribus Unum" and "In God We Trust," the year of minting or issuance, and the mint mark, making these coins unique among today's U.S. circulating coins.

PRESIDENTIAL \$1 COIN PROGRAM

HISTORIC CHANGE IS HERE!

For the first time in history, the United States Mint is honoring the Nation's past Chief Executives with a unique series of Presidential \$1 Coins. Modeled after the United States Mint's popular 50 State Quarters® Program, the series offers another systematically rotating coin design, this one featuring former U.S. presidents. These new coins offer an exciting way to be a part of history – use and collect them all!

DISTINCTIVE NEW LOOK

The new coins bear a design of a former U.S. president on one side and the Statue of Liberty on the other.

Traditional coin inscriptions are cut into the edge of the coins, not the coin surface. Edge-incused lettering draws attention to the inscriptions “E Pluribus Unum,” “In God We Trust,” the date and the mint mark, and makes them unique among today's circulating coins.

STRONG PUBLIC INTEREST EXPECTED

United States Mint research indicates that about half of Americans surveyed said they are interested in collecting the coins. Most survey respondents said that they would be willing to accept the coins in change.

THE FIRST FOUR COINS

George Washington
1789 - 1797

John Adams
1797 - 1801

Thomas Jefferson
1801 - 1809

James Madison
1809 - 1817

Reverse

USE THE COINS EVERYWHERE!

Presidential \$1 Coins are accepted where dollar coins are used, including businesses, transit authorities, and vending machines.

The Presidential \$1 Coin Act of 2005 also requires that business operations that use currency and coin and that are conducted by Federal Government agencies, the U.S. military, transit systems receiving federal funds, and businesses operating on Federal Government premises be capable of accepting and dispensing the new \$1 coin by January 1, 2008.

START SPOTTING THESE COINS IN 2007

The first Presidential \$1 Coin, featuring George Washington, will be available to the public and businesses from their financial institutions on February 15, 2007. Four Presidential \$1 Coins will be issued every year to at least 2016 in the order in which the presidents served.

2007 COIN RELEASE SCHEDULE

YEAR 2007	February 15	George Washington
	May	John Adams
	August	Thomas Jefferson
	November	James Madison

During a six-week period for each Presidential \$1 Coin release (from two weeks before the release date until four weeks after), financial institutions can order unmixed quantities of that specific design to provide to customers. Retailers should talk with their financial institutions about obtaining the new Presidential \$1 Coins.
